EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Ali on 8/9/4.

The application has been amended as follows:

In Claim 1:

in line 1, "affecting" has been changed to - - treating - -;

and in the last line, "affected" has been changed to - - treated - -.

Claims 5, 21-32 have been canceled.

The following is an examiner's statement of reasons for allowance: In a phone interview conducted on 8/11/04 the Kieval et al. '048 and Zabara '282 patents as well as the Hill et al. Patent Publication '549 were discussed in depth. It was agreed that the Kieval reference did not affect heart contractility, however the Examiner argued that Both Zabara and Hill et al. would inherently, by stimulating the ganglion, "affect" contractility, especially since Hill et al. monitored dP/dV, which is known in the art to be related to contractility. It was agreed that since neither reference actually intended to treat heart contractility, changing the word "affecting" to - - treating - - would serve to

define over the art of record, since any affect brought on by their stimulation would not be intentional or monitored to adjust the stimulation parameter as claimed. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey R. Jastrzab whose telephone number is (703) 308-2097. The examiner can normally be reached on Monday - Friday 5:30a.m. to 2:00p.m..
